Angela Marie Ferguson

SS# [REDACTED]

Blonde Hair
Blue Eyes
Large

5'4" - 108 lbs

Statement to Narcotics Detectives:

My girlfriend,

Angela Marie Ferguson (Lynch),

[REDACTED]

Blonde Hair, Blue Eyes 5'4" Weight 108

[REDACTED]

Is badly addicted to illegal Methamphetamines as well as other illicit and prescription drugs. Her family and I are currently pursuing an **Involuntary Evaluation Application A.R.S. 36-520**. She is on the streets but often hides out at:

Desert Shadows RV Park

1630 W Apache Trail Space #46

Apache Junction, Arizona 85220

One key individual providing her Meth and offering her into prostitution is **Richard "Rick" "Half-Man" Preston** [REDACTED] who resides in the broken down RV there. He is missing one arm and one leg up to the hip. His brother **Chris** is another individual involved in Meth, scams, and thefts and has a criminal record. Chris' girlfriend **Penny** is involved as well. However, Chris has many sexual partners including prostitutes and drug addicts. They cook a special Meth just for the girls. There are three grades of the drug they sell. I apologize for the first names and nicknames but that is what most of these individuals go by including many fake names. Meth comes in locally through **Donny-Donald** and his brother **Steve?** who have ties with the **Mexican Mafia**. I know that the Meth is freshly cooked here also because my girlfriend has brought home Meth which was still moist and not fully "cured" yet. Furthermore, they have sent her on runs for chemical supplies. Angela has offered to turn **Confidential Informant** before to help bust the "Big Fish" including "The Wizard" with ties to **Aryan Brotherhood** (I call them the Heroin Brotherhood who prey upon their own people) and Dirty Dozen type

bikers. But she required I let her continue to do drugs and have sex to infiltrate higher. She often carries a hidden recorder around with her. I soundly refused to risk this at the time. Angela has been robbed, sexually assaulted, and held down and injected with drugs. But due to her condition, she will not call authorities at this point. I have seen the needle marks on her buttocks and kidney area as well as severe bruising all over her. I must admit that I have wanted to take the law into my own hands but have thus far refrained from getting physical with these individuals. This is part of the problem I have with the system. She actually has asked me to drag her out of there and to kick their asses on various occasions. But then she gets to "jonesing" and goes back into it. Therefore, I feel I would be the only one to lose in the end. This makes me very sad and frustrated.

I have indeed verbally confronted some of these people and they have threatened my life as well as Angela's. One individual tried to run me over with his red Jeep Cherokee in the parking lot of the Bowling ally on Main Street in Mesa before I ducked behind a pole one night. One of my former acquaintances **Danny** and his girlfriend **Samantha Berg** were heavily involved in the drug trade and **A.B.** This included the drug and weapons involvement of **Joshua Pearce**, Rep. Russell Pearce's son who wanted to join the Aryan Brotherhood. I met an individual named "**Mark**" of the AB as well as "**T-Bone**" and other assorted folks. Prescription drugs, Marijuana, coke, acid, X and Ketamine were the main drugs. Danny seems to have some inside pharmaceutical contact as I saw the "menu" one time which were all medically obtained items with medical doses and so forth. GHB was one of the drugs as well. I strongly discouraged this lifestyle as I have tried very hard to influence the young folks in positive ways regarding Race and Religion, even placing myself at risk to do so. I was suspected of being a "rat" or "working for the government" many times because I do not use drugs. I have met several of the Mexicans including **Roland Fernandez** Tel: [REDACTED] of Tempe, Arizona and some of his cohorts. Roland's sister is named **Sarah** and his mom **Abby**. They all use from what I understand. I know Roland and his son do. I do not recall the name of one of the Vatos who showed up to my home and called Roland with him to claim Angela as theirs. I backed them both down while unarmed as I was furious that Angela being so close to going to Rehab would give in to them. A white guy named **Jay or J.T.** from Drug Court who lives near 35th Ave and Thunderbird is a dealer too. I encountered him at Maverick House in Glendale while trying to seek treatment with Angela. Angela also goes to NA at Recovery & Beyond in Mesa. I have attended as well as Al-Anon meetings.

Roland's crew did one drug deal in front of me in a pool hall on Main St. and Dobson area of Mesa. Although I did not witness the actual sale of narcotics, it is obvious to me that this took place. In my estimation, there was not enough evidence at the time to file a report, however. Roland's son "**Little" Roli** currently has a warrant out for his arrest and is a Meth dealer. He was a boyfriend of Richard Preston and Chris' sister **Cindy** for years. She lives just West of Half-Man in the next complex. She also dates a Mexican

named **Mark** (who has warrent) and she has a mullatto son named **Jeremy** she claims is the product of rape. CPS has investigated Penny and some of the other mothers due to their family neglect. This includes **Keith and Traci**- another couple heavily involved in the Meth trade. They receive Meth shipments from California by a Mexican Mafia woman who travels here called: "**Big Mama**". Keith and Traci and their lesbian sister **Roxanne Burgess** have also sold Meth to Angela many times. Roxanne was Angela's lesbian lover for five years prior to my involvement with her and has severe mental disorders placing her on full SSI. They are also involved in cocaine and the marijuana trade. And a Latino individual named **Mike** who frequents **Spirit's Bar** and drives a motorcycle has been known to exchange cocaine with Angela for sexual favors. The same holds true for Roland and Angela. **Phil Lee** has ties to Meth as well and is a security guard who goes back for years in this circle.

Half-Man's mother who lives North of him near University is somehow involved with an affiliation known as "**SRP**". Apparently, it is a knock off acronym of the SRP power supply company whereby street power is gained through various means. To have your "Policy Cancelled" alludes to murder from what I understand. I do not recall what they call the actual words of their version of SRP at this time. However, Cindy works for UPS at the Airport and has tried to get Angela in there so that they can further their drug deals. Angela has been in the company of these individuals on various scams including stealing meat at Fry's to sell, siphoning gasoline for sale, fraudulent returns at various establishments and the re-selling of gift cards as well as food stamp scams. Roland's sister works for the **BATFE** and in one of her homes in Tucson a whole family was murdered. I am not sure how this is related but she is supposed to be a cocaine user as well. Two other possible murders were mentioned including a drug deal gone badly some years ago against a man from East Mesa in the area of Microwave Hill that had dealings with Keith and Traci. Also, a bald white male used my phone and mentioned an investigation of one of his "boys" who stabbed his girlfriend in the neck. I do not recall his name but the phone number he called is: [REDACTED]

When Angela is seeking help, she will not only reveal information, she will be willing to be a C.I. I had numbers of all these people to provide you, but Angela erased them all from my phone and broke my phone when we were arguing about this. I have called Cox from a neighbor's home to try to get some more numbers of possible leads. Angela wanted to leave state but we have not had the money or the means to do so. She has other documented mental problems besides this drug addiction and these people prey upon her paranoia that some harm will come to her children if she exposes them. It should be easy to pull her over in her red 1992 Isuzu Rodeo as she drives without insurance and drives really bad. Ironically, Angela is a member of the **Governor's Task Force** against Meth. She hails from a political family and I am involved in local politics as well. In fact, I gave a speech at the capitol against Meth amongst other things which can be found on Google Video under the title: "Triumph of the American Will". We have tried real hard to handle

all of this privately due to our public image up to this point. But due to the fear that I personally have regarding her dying as a result of her involvement in the evils of the drug world, I kindly ask for an investigation with as much discretion as possible. I would be personally willing to wear a wire, or put my life in harm's way if it will help to solve the severe Meth problem we have encountered thus far. I must admit that I largely do not trust the government as I believe the so-called "War on Drugs" could have already been won hands down if the top officials were a mind to do so. It is my sincere opinion that corruption concerning this matter stems largely from the White House and down into our homes. For instance, the murder of DEA Agent Enrique (Kiki) Camarena Salazar is another sad tale in this war. But out of desperation to help save someone I love, I am willing to help however I can. I have failed on my own to curb the destruction of this epidemic in the lives of a few people I really care about.
